

BY USING MY COLLABORATION FEATURE, YOU CAN WORK WITH USERS IN REAL TIME, THROUGH AUDIO CONFERENCING AND WEB BASED SCREEN SHARING.

## Collaboration

My innovative collaboration functionality has been proven to revolutionise the way people work, replacing time consuming email trails with smart and swift interactions.

Task lists are shared across groups and updated in real time, making it easy to track progress on projects. My collaboration simply delivers, where other solutions have fallen short.

### Key benefits

- Work in a single pane**  
 With my one-pane interface, speed and efficiency are accelerated. No more navigating between tabs; everything is accessible in one place.
- Multi-device**  
 My collaboration tool can be used on multiple devices so you are not restricted to one workspace. Wherever you are, you can collaborate with colleagues on desktop, laptop, mobile and tablet.
- Efficient working**  
 Highly efficient and effective teamwork becomes a reality. Chats, content sharing, collaborative white board sessions, pictures, videos, presentations, graphic and vocal annotations – all in one place.
- Real-time communication**  
 As with all eve features, the service is exceptional, everywhere. This means that you will experience instantaneous results when interacting via my collaboration tool.
